Tea Selection

At Lady Mary Cole's Tea Room, we believe afternoon tea is more than a ritual, it's a carefully balanced art. Just as every leaf carries its own character, so too must every blend be shaped with intention. The strength of our tea is not left to chance; it is curated through thoughtful blending, ensuring that each pot poured holds both elegance and depth.

Like the rhythm of conversation that flows over fine china, our teas are tailored to complement the moment, never too bold, never too faint, but always in harmony. It is this delicate balance, between refinement and indulgence, that defines the essence of afternoon tea at Lady Mary Cole's Tea Room.
